## About Me

---

I don't take myself too seriously, but I am passionate about what I do

I really enjoy experimental electronic music. I try to listen to new music everyday

I've been to Russia, Italy, Mexico, and the Bahamas. I look forward to travelling more in the future

I received a Cease and Desist Letter before I turned 18

I keep a notebook full of ideas with me. I hope to start my own company with one of these ideas
